

Mechanical Designer/Engineer

MNE Engineering Incorporated

Kitchener, Ontario

MNE Engineering is a team of Mechanical and Electrical Engineers that provide professional design services to private and public sector clients in the building construction industry. Our commitment to quality engineering, combined with a diversity of experience, allows us to produce designs that continuously meet the requirements for technical excellence and value.

Based in Kitchener, MNE's approach to every project emphasizes a functional, cost-effective and energy conscious design that meets budgetary requirements while satisfying energy demands. Our goal is to assist clients within the framework of a collaborative design model while ensuring excellent communication. We pride ourselves in effectively handling project fluidity, while providing practical and dynamic solutions to meet our client's needs.

Position Description:

We are currently seeking a full time Mechanical Designer/Engineer Graduate to join our team.

Duties and Responsibilities:

- Design of various mechanical systems for residential, commercial, institutional and industrial facilities.
- Create concepts and develop detailed designs for large and small scale projects.
- Review and understand Codes and Standards, design calculations and project documentation.
- Prepare drawings, schematics, reports and proposals as required.
- Provide technical and administrative support through all phases of the project.
- Perform field reviews/site meetings during construction.
- Work with project team to ensure timely project completion.

Qualifications:

- Degree in Mechanical Engineering/Registration with Professional Engineers of Ontario.
- Experience with AutoCAD and Revit/BIM software.
- A proven ability to handle sensitive client issues with strong problem solving skills.
- Excellent written and verbal communication skills.
- Ability to take initiative and work with minimal supervision.
- Team player consistently able to meet deadlines, with a strong ability to prioritize.
- Maintain a valid Ontario driver's license.

To apply for this position, please email your cover letter, resume and latest transcript to info@mneengineering.ca

We thank all applicants for their interest; however, only those selected for an interview will be contacted.
